DEFINITIONS

Definitions related to this procedure may be viewed on the SOS [Approved Definitions](#) page.

RESPONSIBILITY

1. Environmental Manager/Environmental Coordination Lead
 - a. Coordinate with the Bureau of Right-of-Way and the design lead, as applicable, to determine if a project will involve temporary or permanent property impacts (acquisitions or easements) outside of the existing right-of-way.

- b. Document the environmental impacts associated with a project, including potential impacts to LCHIP properties.
 - c. Coordinate with LCHIP, as needed.
2. Administrator, Bureau of Environment
 - a. Approve environmental documentation identifying project impacts, including any impacts to LCHIP properties.
 - b. Ensure that this procedure is followed for NHDOT-sponsored projects.
3. Design Lead/Bureau of Right-of-Way
 - a. Determine if, and the extent of, any impacts outside the limits of existing right-of-way and/or existing easements.
 - b. Ensure project plans, designs, and contract documents accurately identify impacts, if applicable, to LCHIP properties.
 - c. As applicable, coordinate with the Bureau of Environment if/when impacts to LCHIP properties are anticipated, pursuant to RSA 227-M:13.

PROCEDURES

1. When undertaking the environmental review of a project, the Environmental Manager/Environmental Coordination lead shall coordinate with the designers to determine if there would be any proposed work outside the limits of the existing right-of-way and/or easements.
2. If it is determined that there would be no permanent project-related property impacts outside the limits of the existing right-of-way and/or existing easements, no coordination nor communication with LCHIP shall be required for the project.
3. In such instances, the environmental document shall include an environmental commitment stating that the project does not include any permanent impacts outside the limits of the existing right-of-way and/or easements, and that if the contractor or construction operator's method of construction would require such impacts, he/she shall coordinate with LCHIP to determine if there would be impacts to LCHIP properties and if so, comply with any requirements stipulated thereby.
4. If, at any time during design, it is determined that proposed work would involve permanent impacts outside of limits of the existing right-of-way and/or any existing easements, the Environmental Manager/environmental coordination lead shall coordinate with LCHIP to determine if there would be any permanent impacts to LCHIP properties. If impacts are anticipated, the requirements outlined in RSA 227-M:13 shall be followed. In addition, the commitments in the environmental document shall be developed or modified accordingly.

TRAINING

All Bureau of Environment staff completing environmental reviews shall be made aware of this procedure. The procedure will also be made available to external organizations completing environmental reviews on behalf of NHDOT.

DISCIPLINE

Disciplinary action related to this procedure can be found in the referenced policy.
