

Secondary Highways

The volunteer Sponsor-A-Highway Program was created to support NHDOT's ongoing efforts to make our highways cleaner and more attractive while at the same time, mitigate the growing costs of litter removal. This program encourages community members and businesses to help in beautifying their communities by volunteering time and resources to maintain the beauty of New Hampshire's state highways.

Maintenance providers are private companies that perform litter removal activities under strict safety guidelines for a sponsoring group.

Individuals or groups wishing to participate in the program can submit an application to the Sponsor-A-Highway Coordinator of the District in which the desired section of highway is located.
